

Persuasion and Debate

Class 300 121020

In our 100-Level Class, "Power of Presentation," your child will have gained the courage to speak respectfully in front of others with confidence. **Your child is ready to stand up for what they believe in. They are ready to learn how to build and deliver credible arguments in order to open minds. They will learn to master the art of emotional storytelling and how it connects to motivating others to contemplate change. They are about to learn the secrets of applied logic to encourage, coax, and convince others down a different path of thinking. They are ready to persuade and debate.**

The Master Happiness methodology is all about "Learning while Laughing." Students will have fun but will be expected to actively participate in order to get the absolute most out of these sessions. Lessons are a combination of lecture, impromptu presentations, games, and some homework that includes research and writing.

This course is broken down into 8 - 1 hour classes. And like all educational presentations taught by Master Happiness, LLC, these classes are adjusted to fit the individual needs of the class.

Persuasion and Debate

Listening and Understanding - Students will learn more than just listening to the spoken word. They will be introduced to listening to the implied meanings behind the spoken word. They will learn to identify misleading information and how to combat it.

Claim - These students will practice concise speaking. They will learn to get to the point quickly and to cut through unnecessary hyperbole.

Evidence - Not only will these students learn how to find and verify supporting facts, they will learn how to present them. Through anticipation of strong rebuttal, these students will learn how to create "rock solid" evidence-based arguments.

Impact - More important than the "HOW" or "What" of their arguments, these children will become masters of the "Why" of their words.

Credibility - These students will learn to quickly find verifiable and trusted sources to support their arguments.

Emotion - Through the art of emotional storytelling, your children will be able to grab their listeners by the heart in order to win them over,

Rebuttal - One of the most important parts of debate is not only finding holes in your competitors argument, but knowing how to present their flaws in a respectful manner.

Logic - These future masters will learn to create, almost indisputable, arguments through the appeal of reason.

Summation - Using their new found skills of listening and logic, these students will learn how to wrap up their arguments and close the door on further rebuttal.

This class will consist of almost 100% debate practice and analysis.

It is designed to prepare these kids for advanced debate classes, sales strategies, and negotiation skills.
